DESCRIPTION

Spectrum PET-G MATT is a PET-G-based material with a chemical composition modified so that it is possible to obtain matte surfaces of printed object. The matte finish of printed items considerably improves their aesthetic properties and also minimises the visibility of layers on the side surfaces of printed items.

FEATURES

- UV stabilization
- high quality matte side surface with hardly visible layers
- increased adhesion between the layers
- high durability
- high rigidity of items
- no shrinkage after cooling

STORAGE AND SHELF LIFE

Filament should be stored in a dry room at room temperature. Recommended storage temperature is ca. 18-25°C (64.4 -77.0°F). Keep out of moisture, sunlight and direct heat. When stored properly, product has a shelf life of 24 months.
