DESCRIPTION

The specific qualities of Spectrum Smart ABS include a high impact resistance and relatively high rigidity. "Smart" version demonstrates improved processing parameters which considerably reduce the difficulties which accompany the additive manufacturing using the standard ABS.

FEAUTURES

- high impact resistance and rigidity
- high gloss of external surface
- reduced warping ratio (0.5-0.7%)
- good interlayer adhesion, especially using 3D printer with heated chamber
- low water absorption
- easy post-processing (grinding, drilling, sawing)

STORAGE AND SHELF LIFE

Filament should be stored in a dry room at room temperature. Recommended storage temperature is ca. 18-25°C (64.4 -77.0°F). Keep out of moisture, sunlight and direct heat. When stored properly, product has a shelf life of 24 months.
